LOCAL HAPPENINGS

Skating to night. R. A. M. to-night. Surveyor Howe is over in Bisbee. F. N. Wolcott is paying a visit to Tucson. Gents' silk neckties, 25 cents and upwards, at Sydow & Kieck's. 16 The thermometer at Yonge's drug store registered 78 deg. yesterday. Ham sandwiches and trimmings at the Fashion saloon tonight. Business at Bisbee is reported quite lively and everybody happy. The most complete line of men's, boys' and children's hats in Tombstone, at Sydow & Kieck's. 16 Juan A. Garcia, of the San Pedro 7's house, Sonora, arrived in Tombstone last evening. The man friends of S. L. Hart will be pleased to learn that he is improving. Harris, the tailor, has received a large stock of fall and winter goods of the latest patterns. Hon. Alex. Wight is afflicted with rheumatism and is quite ill. Dr. Goodellow is attending him. Superintendent Fisher has kicked his neck and is now able to turn a corner without any trouble. Overcoats and jackets, at prices lower than ever offered before, at Sydow & Kieck's. 16 The meeting of the City Council last night was postponed until next regular meeting. Dr. Adams will be present at the morning and evening services of the M. E. Church to-morrow. Swinton's indelible marker, for clothing and all other fabrics, is for sale at Monmonier's. District Attorney Stillwell returned from Bisbee last evening by private conveyance. A Mexican woman living on Fremont street was slightly burned by her clothes catching fire yesterday morning. We learn that George Kent, railroad agent at Fairbank, has resigned his position and accepted a more lucrative one in Texas. Ben P. Abrams will leave for Bisbee in a few days to resume his old position in J. Myers & Bros.' store. He will attend to all business of the firm at that place. District Clerk Geo. H. Daily yesterday received a letter from Judge Barnes stating that he would arrive in Tombstone next Wednesday or Thursday and open court on Thursday and call a grand jury.

Married.

From a private letter received yesterday we learn that Geo. S. Rice was married, on the 10th instant, to the daughter of the chief engineer of the Croton aqueduct, in New York City. Mr. Rice is now holding the position of deputy chief engineer and will be remembered by many of our residents as general manager of the Boston and Arizona Smelting and Reduction company and superintendent of the Stone wall mine, in its pitmy days. He was noted for his personal popularity and social attainments and was liberal minded to a fault. He was a skillful engineer and first came to Tombstone in 1879 and superintended the construction of the Boston mill. He remained manager for the company until the closing down of the mill, and gave universal satisfaction to those dealing with the company. He has held many important positions for a young man, particularly the construction of the Boston aqueduct. His numerous warm friends in this city wish him and his bride a happy and successful life.

In regard to the base ball at Phenix there is something decidedly rotter in Denmark. No news yesterday except a meagre dispatch to a private citizen, and the dispatch seemed rather mixed up. Although this office received a press report from Phenix last night, yet base ball was not mentioned. Our special correspondent has probably gone on a bust or else the asylum authorities got onto him.

Señores Santiago and Miguel, two natives of the sunny South, were run in Thursday night for being drunk and sleeping on the streets. Yesterday morning they were assessed \$10 each, which Miguel paid, but Santiago concluded that he needed exercise and is now getting it under the supervision of Chief Gage.

The firm of J. Myers & Bro. reopened their doors yesterday and are prepared to sell any amount of goods to any one for spot cash. The branch store at Bisbee will also be reopened in a few days. This is pleasing news to our residents and of benefit to the entire community.

A. B. Glenn, of Chicago, arrived here yesterday to take the place of Captain Kelton, who is now in the service of Uncle Sam as mounted inspector. Mr. Kelton retires with a good record and an even temper, as he says if his party was in power he would expect the other fellows to get the grand bounce.

While Postmaster Clark was in Tucson recently L. M. Jacobs turned over to him the surplus fund collected from the bondsmen of A. J. Ritter for distribution. Mr. Clark has apportioned the money and the bondsmen can call and get their cash.

The ranges in the vicinity of the San Jose mountains, in Sonora, are said to be fine, and the winter feed will be good and plentiful. Several mining claims are being prospected in the mountains, with good indications.

Dr. Frank Haynes, formerly of this city but now of Los Angeles, was recently thrown from his horse and suffered a dislocation of his shoulder. His brother resides in this city.

Wm. C. Staehle informs our readers this morning that he is now prepared to promptly attend to any legal business entrusted to his care. See notice in this issue.

Pictures, picture frames, mouldings and artists' materials at Monmonier's. Fresh buttermilk at the Can Can.

MINING NOTES.

News of importance in mining circles is very scarce this week, the Turquoise mines being the only ones attracting attention. Two claims in this district are showing good bodies of ore of over average grade and are really good prospects. What they may develop into is a question of time and development work. The owners are reticent about their properties and are satisfied with the present showing.

The output of the Escondido is unusual and the shipments are the same.

The Big Comet is increasing its output of ore. Drifting is being done on the 300 level and sinking is being continued.

The Tombstone M. & M. company continue the usual work and is shipping the usual amount of ore.

Work is being continued on the Herschel and good ore is being extracted.

Work has started up on the Independence and a small new building is being erected. This mine has produced good ore in early days but has not been developed sufficiently to demonstrate its value.

No ore is being extracted from the State of Maine at present, although development work is being continued.

Work is being continued on the Ground Hog, mostly of a prospecting nature.

The Vienna is producing the usual amount of ore for the mill.

The Stead Silver mill continues to run smoothly and satisfactorily on Vienna and Ground Hog ores. A new China pump has been erected to run the tailings to higher ground. The usual shipments are being made.

No report has come from the Dragoons during the week.

Numerous prospects throughout the district are being worked, many of them showing up in a very encouraging manner, demonstrating that all the ore in this district is not confined to a few of the larger companies. There is a slightly better feeling among mining men, although there has been nothing apparent to justify the feeling.

Races at the Fair. The following account of the first day's racing at the fair is taken from the Phenix Gazette:

The first on the programme was the bicycle race of half mile heats, best two in three which had three contestants, Messrs. Sattle, Rice and Robinson. The race was won by Sattle, he taking two straight heats in 1:49 and 1:52. Rice second in both heats; Mr. Robinson was sick and did not race in the second heat.

After the bicycle race, the horse racing began with a running dash of a half mile. There were six entries. The race was won by Newt Clanton, in 56 seconds with Fima half a length behind.

Then followed the stallion trotting race, mile heats, three in five, Adrian, Index Jr. and Pacific were the entries. Index Jr. won the race in three heats in 2:47, 2:46, 2:45, with Adrian second in the first and third heats.

The last race of the day was the 2:50 class trotting stake, mile heats, best three in five. There were three horses entered, Smoky, Harry D., and Prince. The first heat was won by Harry D., time 2:45, the second and third heats by Smoky in 2:55 and 2:52. Owing to the darkness the conclusion of the race was postponed until to-day at 1 o'clock.

WM. C. STAEHLE, ATTORNEY AND COUNSELOR AT LAW. Office—Allen street, between Fourth and Fifth, Tombstone, Arizona.

Apache Indians to Hang.

Judge W. H. Barnes, who has been in Florence for ten days, holding a term of the Pinal county District Court for Judge Kibbey, who is occupying the bench here during the investigation of the Wham robbery cases, returned home last night. There was a large docket of routine business, which was dispatched promptly as usual with Judge Barnes.

The criminal docket included the cases of five Apache Indians, charged with murder—three for the murder of Ditch and Grace, on the San Pedro, two years ago, and two for the murder of a man named Jones, who was freighting through the reservation in 1887. All five were convicted of murder in the first degree and were sentenced to be hanged.

These Indians are the same that were sent to the Columbus prison for a long term last year, and who were sent back to the Territory last spring the Supreme Court having decided that the United States courts had no jurisdiction and that they must be tried by the Territorial courts.

Judge Barnes was highly pleased with the evidences of prosperity that he saw in the vicinity of Florence. He was delighted with the appearance of the surrounding ranches and orchards, where he beheld all the necessities of life in a state of growth that will rival the productiveness of any country under the sun. In the orchards he saw all kinds of fruit, including olives, dates, almonds, etc.

The work of completing the Florence canal is being pushed.—Citizen.

Information Wanted

Of Robert Alma Evans; 25 years old; when last heard from was in Tombstone, Arizona. Any information as to his whereabouts, whether dead or alive, will be a comfort to his mother, brother and sisters.

JOHN E. EVANS, In care of H. Dinwoody, 37 to 43 W. First South street, Salt Lake City, Utah.

Maison Dore.

This old time and popular restaurant still maintains its position as a favorite place for our citizens to regale themselves on all the table delicacies, which are prepared in a toothsome manner and served by polite and attentive waiters. This restaurant makes a specialty of broiled steaks and cutlets, and imports coffee of extra quality, thus being able to furnish the best cup of coffee obtainable in the city. Fresh fish every day, and an elegant chicken dinner every Sunday.

A Hale Old Man

A hale old man, Mr. Jas. Wilson of Alhens Springs, Ill., who is over sixty years of age, says: "I have in my time tried a great many medicines, some of excellent quality; but never before did I find any that would so completely do all that is claimed for it as Chamberlain's Colic, Cholera and Diarrhea Remedy. It is truly a wonderful medicine." For sale by H. J. Peto.

Barris, the Tailor,

And practical cutter. Nobby suits and pants a specialty. My will is good, my work is just, I use you well, but ask no trust. Allen street, Tombstone, Arizona.

Latest periodicals at Monmonier's. Stationery, paints, oils, etc., at Monmonier's. 7-20

Fresh fish and fresh oysters every day at the Maison Dore.

Stevenson & Walker are the authorized agents for Louisiana lottery tickets in this city. By investing \$1 you have a chance of winning a fortune. If

(First Publication September 22, 1889.) Application No. 233 for a Patent on the Longfellow Mining Claim.

UNITED STATES LAND OFFICE, TUCSON, ARIZONA, September 20, 1889.

Notice is hereby given that in pursuance of chapter 22, title thirty-two, of the Revised Statutes of the United States, W. P. Cook, whose office address is Tombstone, Cochise county, Arizona, claiming the Longfellow mine, of which he is the owner and inventor of a certain improvement in the method of mining, has filed in the U. S. Land Office at Tucson, Arizona, a certain map or plan of the said mine, which is a copy of the original filed in the U. S. Land Office at Tucson, Arizona, and which is a copy of the original filed in the U. S. Land Office at Tucson, Arizona, and which is a copy of the original filed in the U. S. Land Office at Tucson, Arizona.

The said mining claim being of record in the office of the recorder of Cochise county, Arizona Territory, at Tombstone, in the county and Territory aforesaid, and presumed a general course or direction of the said Longfellow vein, lode or mineral deposit, being shown upon the plat and posted herewith, as best it can be determined from present developments. This claim is for eight hundred and six-tenths linear feet thereof, together with surface ground shown upon the official plat posted herewith, the said vein, lode or mineral premises hereby sought to be patented being bounded as follows, to-wit: Upon the south by the Knoxville M. C. No. 122, and upon the northwest by the Lucknow M. C. No. 56, the said claim being designated as Lot No. 208 in the official plat posted herewith. And any and all persons claiming adversely the mining ground, vein, lode, premises or any portion thereof, so described, surveyed, platted and applied for, are hereby notified that unless their adverse claims are duly filed according to law and the regulations thereunder, within the time prescribed by law with the Register of the U. S. Land Office at Tucson, Arizona, they will be barred in virtue of the provisions of said Statute.

And it is hereby ordered that this notice be published for ten (10) consecutive weeks in the Tombstone Daily Epitaph, a weekly paper published at Tombstone, Cochise county, Territory of Arizona.

Dated this 20th day of September, 1889. HERBERT BROWN, Register.

Parents should be careful that their children do not contract colds during the fall or early winter months. Such colds weaken the lungs and air passages, making the child much more likely to contract other colds during the winter. It is this succession of colds that causes catarrh and bronchitis or paves the way for consumption. Should a cold be contracted, lose no time but cure it as quickly as possible. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold in a few days and leave the respiratory organs strong and healthy. For sale by H. J. Peto.

UNDERTAKERS ASSOCIATION
